

Introduction to BookTix Live

Social distancing doesn't need to mean social disconnection - your show CAN go on, and we're here to help.

BookTix Live is our new streaming platform that gives you the ability to produce great shows and deliver them over the internet for home viewing. Set up a livestream or stream a pre-recorded show! Our new streaming platform provides all of the security, ease of use and budget friendly experience that you've come to know and trust from our BookTix ticketing solution.

Here's How It Works

Setting Up

Send us all of your show details and we'll help get you set up. A member of the BookTix team will walk you through setting up your hardware - from a simple mobile device on a tripod all the way to a complex multi-camera stream - whatever fits your budget and comfort level.

- 1 Send us your show details so we can setup everything for you.
- 2 Choose your streaming & equipment option: EZ Stream, Mobile, or Pro Advanced
- 3 Schedule an appointment with a BookTix team member to set up your equipment

Shoot

We help you determine the right equipment for your theater venue and walk you through configuring your streaming hardware and software to send the feed to BookTix.

Stream

We take your live show input and process it on our secure servers. We ensure your packaged stream is protected and meets licensing requirements.

Show

We then distribute secure stream pass links to your ticket buyers to view the stream on their computers and mobile devices in your virtual theater portal hosted on our website.

The Stream

Approved by authors for its safety and security, we stream your video on our secure website using the same technologies that the major streaming platforms use.

Patron Experience

Your ticket holders will receive a secure StreamPass link to our video player which is viewable on only one device. No apps to download, no software to install!

Integrated Ticketing

BookTix Live integrates directly into our ticketing platform - for an easy and seamless ticketing and livestream experience. It is also available for use with other ticketing platforms if needed.

Unparalleled Customer Support

Our staff is ready to help with setup, training and testing your livestream environment, and we will even be available during your scheduled performance if there is anything we can do to help.

If you're ready to make the leap from on stage to online - reach out to us today to get started!
